PARTNERSHIP OFFER · PREPARED FOR <BRAND NAME>

Winning reels, remade for your product, every day.

Robe Studio is a done-for-you AI video system. Your creators send a reel that already works; they get back a finished, on-brand video in about 20 minutes. No editors, no agencies, no editing skills.

0–6 s	~1.5 s	~2 s	~1.6 s	~2 s	~2.5 s
Hook	Try-on	Details	Feature	Feature	Cozy ending

WHAT YOU GET

A content engine your team runs by chatting

Robe Studio replaces a video editor and a UGC agency with one system. It copies what already works in your niche and rebuilds it for your product, with quality checks at every step.

01

Winning hooks, remade

Same motion, same timing and the same spoken words as the original reel, with new people and your product. Never a straight copy.

02

Your product, shown the way it sells

Try-on, close-ups of the features and a cozy ending, in a new room with a new person every video.

03

Quality control built in

Every clip is checked frame by frame and redone automatically when something looks off, before your team sees it.

04

Variety on autopilot

Each video differs from the last three in hook, outfit, music and on-screen text, so your accounts never look repetitive.

05

Zero editing for your team

Creators talk to Claude in plain English: a link, an idea, a song. They never open an editor or a file.

06

Volume at low cost

About 20 minutes per finished video in 1080×1920, ready for TikTok, Reels and Shorts. Generation costs a few dollars per video.

HOW IT WORKS

From a reel link to a finished video

1. **Your creator sends a reel and names the product**
   Or describes an idea of their own. Plain English, no commands.

2. **The system studies the original**
   Every action and every spoken word is mapped to the second, so the remake moves and sounds the same.

3. **New person, new room, your product**
   Faces and rooms rotate automatically; new ones are sourced when the library runs low.

4. **Clips are generated and checked**
   Hook, try-on, product features and the ending. Anything with a glitch is redone with the fix written in.

5. **Edited in a proven order**
   The original's on-screen text, music with the chorus on the reveal, 1080×1920.

6. **Your creator posts**
   They get the MP4 and a caption. Their job is ideas and posting, nothing technical.

> **Your team's only job is creativity:** picking reels that work, inventing new hooks, choosing the ending. Everything technical is handled by the system.

INVESTMENT

Built as a long-term partnership

One start fee covers the full setup and your entire first month of support. After that, my fee grows only when your revenue does.

TO START

$5,000

Setup + first month of support included

FROM MONTH 2

6%

of monthly store revenue

MONTHLY MINIMUM

$1,500

whichever is higher applies

WEEK 1

Adaptation

System adapted to your product: references, try-on and feature clips.

WEEK 1–2

Team onboarding

Setup for each creator, first test videos together.

WEEKS 2–4

Daily production

Your team produces; I review, fix and improve.

MONTH 2+

Partnership

Updates every few days, support, new formats.

INCLUDED	FIRST MONTH	EVERY MONTH AFTER
Setup for your product	Yes	New products on request

System updates	Every few days	Every few days
Support for your team	Reply within 24 h	Reply within 24 h + weekly check-in
New hook formats and fixes	Yes	Yes

TERMS

Partnership terms, in plain words

- **Start fee:** $5,000, paid before setup begins. Non-refundable; it covers the setup and the first month of support.
- **Revenue share:** from month 2, 6% of the store's gross monthly revenue, with a $1,500 monthly minimum. Invoiced by the 5th, due by the 10th of each month.
- **Reporting:** read-only collaborator access to the store (or the monthly sales report from the store and payment processor).
- **Term:** 6 months to start, then month to month. Either side can end it with 30 days' notice after the first 6 months.
- **License:** you get the right to use the system for your brand while the partnership runs. The system stays mine; it can't be shared, copied or resold.
- **Your accounts:** image and video generation credits, Claude and GitHub run on your own accounts, so you keep full control of your content and costs.
- **Your content:** every video your team makes is yours to keep and use, during and after the partnership.

NEXT STEPS

Getting started

1. **Agree on the offer**
   A short call to confirm products, number of creators and start date.
2. **Start fee and access**
   $5,000 paid; store collaborator access shared.
3. **First videos within week 1**
   Your product set up and your first creator producing.
